

Nourishing Soil Workshops with Bee Winfield

These workshops are based on the work of Dr Elaine Ingham and Bee's many years of experience being a "soil life coach". Bee has been improving the soil on her permaculture "Merri Bee Organic Farm" in Nannup for the past 30 years and loves to share the knowledge she has gained in doing so. Come along for an intensive hands-on primer on the wondrous world of soil.

Workshop 1: The Soil Food Web

Saturday 10 September 1.30 - 5.30

Topics include:

- The fundamentals of creating good soil biology
- How to conduct a soil health check-up in your garden
- How to team up with your soil microbes to produce more nutrient dense food from your garden
- How to improve the water holding capacity of your soil
- Worm farming - theory and practice

Workshop 2: Activating the Soil Food Web

Sunday 11 September 9.00 – 5.00

Topics include:

- Making thermal compost - theory and practice
- How to restore your soil food web
- How to remediate toxic soil
- How to deal with pests and diseases without chemicals
- Aerobic compost teas – brewing them, assessing them and using them

All the details:
